Instructors

Courses are carried out by our fully trained and accredited instructors and the training will be of a high quality standard throughout.

Location of Training

Training can be delivered on-site and off-site depending on customer requirements; training delivered off-site will be more advantageous to the trainees as the training can be specific to their workplace activities.

Equipment

Must be in sound working order, efficient state and of good repair when being used for training off-site and to be made available when required for the practical aspects of the training, ideally in an area away from the normal day to day work activities.

Prerequisites

Operatives should be medically fit, have good eyesight and general ability to handle lifting equipment, experienced and have technical knowledge to carry out the role competently.

Achievement Measurement

The training is carried out in accordance with relevant Nationally Accredited Standards and includes both theory and practical assessments leading to a nationally recognised qualification on successful completion.
