- Re-fuelling and re-charging.
- Rescue and emergency procedures.
- Correct use of PPE (Personal Protective Equipment).
- Pre-use checks test.
- Multi and Open choice theory tests.
- Practical test.

### **Instructors**

Courses are carried out by our fully trained and accredited instructors and the training will be of a high quality standard throughout.

### **Location of Training**

Training can be delivered on-site and off-site depending on customer requirements; training delivered off-site will be more advantageous to the trainees as the training can be specific to their workplace activities.

### **Equipment**

Must be in sound working order, efficient state and of good repair when being used for training off-site and to be made available when required for the practical aspects of the training, ideally in an area away from the normal day to day work activities.

### **Prerequisites**

Operatives should be medically fit including good eyesight and hearing.

### **Achievement Measurement**

The training is carried out in accordance with ITSSAR Accredited Standards and includes both theory and practical assessments leading to a nationally recognised qualification on successful completion.
